

Alicia Ayers Lott

FULL STACK DEVELOPER

About Me

I am an energetic professional who has enjoyed a fulfilling career as a nurse, and is now seeking new challenges as a software developer. I am a passionate problem solver who is results-driven and curious to find efficient solutions. My diverse history within the field of nursing highlights my hunger for growth and constant education.

Technical Skills

- JavaScript
- React
- HTML
- CSS
- Python
- Django
- Git/GitHub
- SQL

Projects

HomeGrown- Front End Capstone

Tech Stack | React, JavaScript, HTML, CSS

This React App is a platform where home gardeners are able to plan what time of year to plant their crops, and keep up with what they are currently growing. Users have the opportunity to learn from others and share their experiences on an interactive chat board.

- Full CRUD capability
- [GitHub](#)

Rare- Group Project

Tech Stack | React, Python, SQL

Social media platform where users can post images and see the images of other users.

- Full CRUD capability
- [Client Side Code](#)
- [Server Side Code](#)

Certifications

- State of Tennessee Registered Nurse
- Advanced Cardiac Life Support
- Basic Life Support

Technical Experience

Software Developer Apprentice

Nashville Software School- 2021

NSS is a six-month intensive, full-time software development bootcamp.

- Utilization of JavaScript and React to create single page dynamic and interactive web applications with full CRUD capability
- Database planning using the creation of entity relationship diagrams (ERD) to define relationships
- Project management utilizing tickets and GitHub Projects
- Completed 6 group project sprints while fully remote
- Participated in live code sessions using Zoom
- Comfortable with Slack, Zoom, GitHub, and wireframes to communicate in a remote group environment
